Highlights

Warm white light (2700K)
Light can have different color temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more cozy light, while those with a higher Kelvin value produce a cool, more energizing light.

Lifetime 15
Providing the same incandescent look and feel, while offering the much longer lifetime.

36° halogen light beam

With a familiar focused light output, equal in look and feel to halogen spots, this LED spot is suitable for both accent lighting and general purpose lighting.
