Light that's easy on your eyes

Comfortable light from the world leader in lighting

Poor quality light could cause eye strain. It's more important than ever to properly light your home. Philips LED lamps fulfil stringent test criteria to ensure that they meet our Eyecomfort requirements†

Benefits

Create a warm atmosphere

- True incandescent-like warm white light (2700 K)

Suitable for spots and general lighting

- 36° halogen light beam

Everyday LED

- A simple LED for everyday use

Comfortable LED light that is easy on your eyes

- Designed for the comfort of your eyes
- No visible flicker

Features

Warm white light (2700 K)

Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, cosier light, while those with a higher Kelvin value produce a cool, more energising light.

PHILIPS

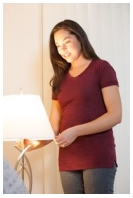

LED

36° halogen light beam

With a familiar focused light output, equal in look and feel to halogen spots, this LED spot is suitable for both accent lighting and general-purpose lighting.

A simple LED for everyday use

The Philips everyday LED is the perfect bulb for basic lighting needs. It provides the beautiful light and dependable performance you expect from LED at an affordable price.

Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

No visible flicker

When your light flickers in quick succession it could be hard on the eyes, cause headaches and even set off an attack for those with photosensitive epilepsy. It's both unpleasant and unnecessary. LEDs can flicker because of their rapid response to the driver current. However, because Philips LEDs are designed so that variations in your driver current's output are minimised, they eliminate the factors that cause flicker. So, you won't see it, not even a hint.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Bulb characteristics

Shape	Spot
Cap/fitting	GU10
Dimmable	No
Voltage	220–240 V
Wattage	3.5 W
Wattage equivalent	35 W
Lamp shape code	MR16

Power consumption

Energy efficiency label	A+
Power consumption per 1000h	3.5 kW·h

Light characteristics

EyeComfort	Eye Comfort
Beam angle	36 degree
Colour	Warm White
Colour temperature	2700 K
Colour rendering index (CRI)	80
Starting time	<0.5 s
Rated centre beam intensity	650 cd

Durability

Lifetime of lamp	15000 hour(s)
Number of switch cycles	50000
Average life (at 2.7 hrs/day)	15 year(s)

Bulb dimensions

Height	50 mm
Width	54 mm

Other characteristics

Power factor	.5
Lamp current	30 mA

* Designed for the comfort of your eyes. Visit www.philips.com/eyecomfort for flicker, strobe and other criteria and product details.
* PstLM is smaller or equal to 1.0, measured according to IEC 61547-1 and IEC 61000-4-15.
