PHILIPS
AVENT

Essential Single breast pump
Electronic/manual

SCF902/12

Highlights

5 settings with a simple user

It starts from the first setting of gentle stimulation and increases gradually, to let you select one level that is most comfortable. The user interface with the specifically designed pause button is intuitive and easy to use

Gentle-draw vacuum

The gentle-draw vacuum mimic baby's suckling

Optimally designed suction lev

Optimally designed suction level is gentle to the breast and helps you quickly express milk until the breast is empty. The design separates milk flow from air flow, ensuring milk hygiene and making cleaning easier.

No intrusive sound

No intrusive sound when pumping at home or out

Soft silicone petal cushion

The soft silicone petal cushion of the Philips Avent breast pump closely attaches to the breast and gently massages the area around nipple to stimulate fast let-down

Easy to be carried around

Small and lightweight pump, can be put on a table or hung up during usage. Also use on the go with 4 AA batteries (not included). A pouch and a sling are provided

From single to manual usage

Your breast pump should be able to adapt to your needs. This is why our new single electric breast pump is designed to easily switch from single to manual usage with free handle including. This way you can always express in the way that you want to.
