# Reveal their habits for improved brushing routines

## App turns brushing data into feedback and coaching

The new Philips Sonicare FlexCare Platinum Connected, powered by Smart Sensor Technology, reveals your patients' brushing habits and helps coach them into a better oral care routine.

### Benefits

#### Track your brushing with real-time guidance

- Powered by Smart Sensor Technology
- State-of-the-art 3D mouth-map
- Custom guidance with Touch-Up
- Highlights trouble spots
- Brush head monitor
- Goal-setting and progress reports

#### Provides a superior clean

- Exclusive bonus items only available to dental professionals
- BrushPacer and SmarTimer for thorough brushing
- AdaptiveClean brush head
- InterCare brush head
- Customizable modes and intensities
- Extended battery life and convenient travel case

PHILIPS

## Features

### Bonus items not sold at retail

Now you can offer these exclusive Philips Sonicare Flexcare Platinum Connected bonus items your patients won't find anywhere else. Designed around patient needs for dental offices like yours, the package includes: 1 ProResults gum health brush head and 1 trial size (2 oz.) BreathRx rinse.

### Smart Sensor Technology

Three smart sensors send personalized brushing data to the Philips Sonicare app. Location sensor shows patients where they're brushing too little for better coverage. Scrubbing sensor helps guide patients to reduce scrubbing for optimized technique and a deeper, more gentle clean. Pressure sensor tracks brushing pressure and gently pulsates the handle to tell patients when to adopt a softer touch.

### State-of-the-art 3D mouth-map

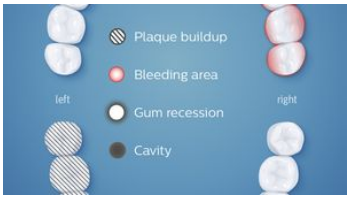

A personalized 3D mouth-map provides post-brushing analysis so patients can track and refine their routine and identify trouble spots that require extra attention.

### Touch-Up

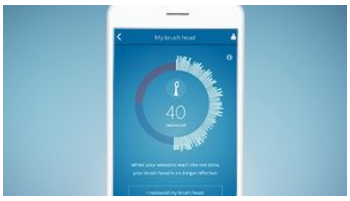

The Touch-Up feature displays customized guidance based on actual brushing data in order to immediately address missed areas.

### Highlights trouble spots

Based on advice from their dental professional, patients can highlight and address areas on the personalized mouth-map in need of extra care due to plaque buildup, gum recession or another issue.

### Brush head monitor

Using actual brushing time and pressure, the brush head monitor alerts patients in three months or less when it's time to replace their brush head, ensuring continued effectiveness for the best results possible.

### Goal-setting, progress reports

The Philips Sonicare app maintains a running history of a patient's personalized brushing data, allowing them to easily review performance and set daily and long-term goals. After 30 days, patients can generate an in-app progress report summarizing their brushing performance, with the added option of sharing reports with their dental professional via email.

### BrushPacer and SmarTimer

The BrushPacer tracks brushing through six segments of the mouth for a complete clean, while the SmarTimer ensures that patients brush for the full two-minutes as recommended by dental professionals.

### AdaptiveClean brush head

Soft, flexible sides made of rubber allow the bristles to conform to the unique shape of patients' teeth and gums to provide up to 4x more surface contact*. The brush head's flexibility helps the bristles gently track along the gumline and absorb excessive brushing pressure. Enhanced sweeping motion delivers a unique in-mouth feel and superior cleaning along the gumline and in hard-to-reach areas*. Proven to remove 10x more plaque than a manual toothbrush in hard-to-reach areas*.

FlexCare Platinum Connected

### InterCare brush head

Extra-long, high-density bristles reach deeper between teeth to help remove significantly more plaque* interproximally. Ideal for patients with bleeding gums or increased risk of gum inflammation.

### Battery life and travel case

When fully charged, Philips Sonicare FlexCare Platinum Connected retains enough battery life for up to three weeks of use. And with the travel case and charger, on-the-go brushing is easy.

### Customizable modes

With three modes, Clean, White and Deep Clean, and three intensity settings, Philips Sonicare FlexCare Platinum Connected provides a customized experience for optimal comfort.
