HEPA 13 filter

FC8673/01

High suction power with PowerCyclone 4

Quick and easy emptying

The new Philips PowerPro Active bagless vacuum cleaner delivers high cleaning performance, thanks to PowerCyclone technology and Multi Clean nozzle, engineered to maximize dust pick-up. The dust container is easy to empty,with no dust cloud

Remarkable cleaning results
- 2000 W motor for strong suction power
- PowerCyclone 4 technology separates dust and air in one go
- New Multi Clean nozzle for thorough cleaning on all floors

Effortless cleaning
- Soft brush integrated into handle, always ready to use
- ActiveLock couplings to easily adjust to each cleaning task
- Advanced dust container design for easy emptying
- Remote control for no bend, with IR wireless technology

Clean air filter system
- Multi Clean Air HEPA 13 filter with 99.95% filtration

PHILIPS

Bagless vacuum cleaner
2000 W PowerCyclone 4, Remote control, HEPA 13 filter

Highlights

2000 Watt motor

2000 W motor generates strong suction power for excellent cleaning results.

PowerCyclone 4 Technology

PowerCyclone 4 technology maximizes airflow and performance by separating dirt from air in one go. It delivers remarkable cleaning results through highly efficient steps: 1) Air enters fast into the PowerCyclone thanks to the straight and smooth air inlet. 2) The curved airpass quickly accelerates the air upwards in the cyclonic chamber to separate the dust from the air.

Multi Clean nozzle

The new Multi Clean nozzle delivers a thorough cleanining on all types of floors. The nozzle is designed to seal closely to the floor to ensure a good pick-up of even the fine dust.

Integrated soft brush

The vacuum cleaner is designed with a soft dusting brush, which is coveninently integrated in the handle of the appliance, always ready to use.

ActiveLock couplings

The ActiveLock couplings allow you to easily connect and disconnect the different nozzles and accessories from the telescopic tube while cleaning.

Remote control

With the new remote control feature, you can switch the vacuum cleaner on/off or adjust the suction power settings without returning to the canister and interrupting your cleaning. The control buttons are conveniently located on the handle and the signals are sent to the canister via Infrared wireless technology. For a more comfortable and easier cleaning!

Multi Clean Air HEPA 13 filter

The Multi Clean Air HEPA 13 filter captures at least 99.95% of all dust, ensuring a clean & allergen-free environment.

Easy to empty dust container

The dust container is perfectly designed to dispose dust without creating a dust cloud. Thanks to its unique shape and smooth surface, dust is collected at one side of the container and evenly glides into the dust bin.

Specifications

Performance
- Airflow (max): 37 l/s
- Input power (IEC): 1800 W
- Input power (max): 2000 W
- Sound power level: 80 dB
- Suction power (max): 370 W
- Vacuum (max): 33 kPa

Usability
- Action radius: 9 m
- Carrying handle: Top and front
- Tube type: Metal 2-piece telescopic tube
- Wheel type: Rubber
- Tube coupling: ActiveLock
- Power control: Remote control

Design
- Color: Copper grey

Filtration
- Dust capacity: 1.7 L
- Exhaust filter: Ultra Clean Air HEPA 13 filter
- Motor filter: Microfilter

Nozzles and accessories
- Accessories included: Crevice tool, Integrated brush
- Accessory storage: On tubeclip
- Extra accessories: Remote control
- Standard nozzle: Multi Clean nozzle

Sustainability
- Packaging: > 90% recycled materials
- User manual: 100% recycled paper

Weight and dimensions
- Dimensions of product (LxWxH): 473 x 304 x 301 mm
- Weight of product: 6 kg

Issue date 2016-08-22

Version: 3.1.1
