THE SMART SOLUTION

HYBRID RADIO

Digital Radio „DIR3500MCBT"

THE DISC JOCKEY

The DIR3500MC hybrid radio allows you to enjoy the superior, high-level sound quality of digital radio and also gives you the possibility to play back your favourite music on CD. But that's by far not all. Analogue radio enjoyment, Bluetooth streaming and listening to radio via the Internet is also possible – more musical pleasure is not possible!

Spotify Connect – unlimited musical enjoyment
With Spotify Connect you can enjoy music wherever you like. Smartphone, PC and in future also directly via your radio – when changing the player music starts exactly at the place where you stopped it before.
Millions of songs and always the most current hit lists at the touch of a button – this is Spotify Connect!

UNDOK – comfortable remote controlg
UNDOK allows you to comfortably control your radio via your smartphone or tablet PC. With the free app you can control all settings of the radio, change the stations, administrate favourites or create multiroom groups. Even the complete first setup is directly possible via an Android or iOS device.

Multiroom - listen to your music anywhere in your home
You want to enjoy your favourite music in the bathroom although the radio is in the living room? Multiroom allows you to distribute your music to any compatible speaker in every room of your house even if only one device has the corresponding source.
Large rooms can also be filled with superior sound by simply positioning several devices that play back your favourite music without audible temporal offset!

Bluetooth streaming – music transmission from a smartphone or tablet PC
There is a super wide choice of radio stations but there is nothing like your own music. Thanks to Bluetooth you can stream your favourite songs quickly and easily from your smartphone, tablet, notebook or PC to the radio. Simply pair the radio and your device and enjoy your favourite music!

CD drive
Do you still have good old CDs? With the "DIR3500MC" you do not have to do without your CD collection. Thanks to an integrated CD drive the radio also plays back CDs and lets you enjoy fantastic stereo sound via the two 20W speakers.
