Part No.: 391542

High Speed Cables deliver high-definition performance with no tangles.
HDMI has become the standard digital connection, delivering the highest-quality audio and video signal over a single cable. With a flat, tangle-resistant design, gold-plated contacts and a sturdy yet flexible PVC jacket, Manhattan Flat High Speed HDMI Cables are designed and carefully constructed to meet the evolving needs of the high-definition marketplace. Manhattan High Speed HDMI Cables provide the highest resolution possible at 4K x 2K, an audio return channel and a bandwidth of 10.2 Gbps at 340 MHz. These high-quality cables provide high-definition video and multichannel, digital audio with increased performance characteristics and greater accuracy. Expanded features include Internet connectivity for home entertainment devices using a single HDMI connection. Plus, this cable's unique design makes it easy to roll up or out without worrying about snags and tangles.
