Brings out flavor — each mouthful is delicious

Dual-pulse pressure + Omni Spiral IH brings out th

New Philips pressure cooker with innovative dual-pulse pressure technology and OmniSpiral IH technology to maximize flavor and nutrients, easily helping you to cook tasty meals!

Innovative dual-pulse pressure technology
- High pressure helps to open cell walls and maximize flavor
- Pulsed micro-pressure boils food and enhances taste

Omni Spiral IH technology
- The heat is alternated precisely for perfectly cooked food.
- Flame pot with designed pattern makes heating evener

Multiple innovations
- Reduced pressure release time, open lid right after cooking
- Add Ingredients function for more nutritious and tasty food
- Sauce thickening for richer sauces and tastier dishes

Unique design
- Innovative hi-tech fully hidden panel
- Inner pot pressure is displayed on the user interface

PHILIPS

Electric Pressure Cooker
Dual-pulse pressure technology Omni Spiral IH technology, Flame Pot, 5L, 1500W

HD2195/11

Highlights

Unique high-pulse pressure

Maximum flavor and nutrients unlocked by differences in pressure on the ingredients due to the dynamic pulsed high-pressure technology that effectively opens cell walls.

Unique pulsed micro-pressure

Flavor and taste are enhanced by stirring effect due to the pulsed micro-pressure technology

OmniSpiral IH technology

Patented technology breaks away from traditional heating: powerfully alternating heating power with precision that enables food rotation from two directions

Unique Flame Pot

Patented flame design effectively increases heat reflection, enhancing and guaranteeing efficient thermal conductivity.

Silent turbo pressure release

Silent turbo pressure release technology enables immediate lid opening after cooking finishes; you don't need to manually release the pressure or wait for the pot naturally cools down.

Add ingredients during cooking

Just press the Add Ingredients During Cooking button at any time during the cooking process to add or stir ingredients, making cooking easier and food more nutritious and delicious

Inner pot pressure

Inner pot pressure is displayed on the user interface

Sauce thickening function

After releasing pressure, you can use Reduce Sauce for Flavor for high-power boiling for richer sauces and tastier dishes!

Innovative fully hidden panel

Hi-tech fully hidden panel: all features light up on panel once the cooker is powered up.

Specifications

Accessories
- Included: Measuring cup, Steaming tray/basket, Rice scoop, Soup scoop

Technical specifications
- Capacity bowl: 5 L
- Cord length: 1 m
- Frequency: 50 Hz
- Voltage: 200 V
- Power: 1500 W

Design
- Color: Black & copper

Finishing
- Material of main body: High-quality VCM

Issue date 2016-10-17

Version: 2.1.1
