PHILIPS
AVENT

# Highlights

### Easy for pumping and feeding
With storage lid, the pumped breast milk can be stored directly into refrigerator to keep milk fresh; Feed the baby after pumping by using the standard neck teat

### Ergonomically designed handle

The handle is designed ergonomically thus less effort and easy pumping

### Gentle-draw vacuum
The gentle-draw vacuum mimics baby's suckling

### Optimally suction strength

Suction strength is designed optimally to ensure both comfort and efficiency

### Soft, ribbed silicone teat

Soft, ribbed silicone Philips Avent teat is easy for baby's mouth to seal and latch on the teat. With this, the baby will feel more comfortable drinking from the teat.

### Soft silicone petal cushion

The soft silicone petal cushion of the Philips Avent breast pump closely attaches to the breast and gently massages the area around nipple to stimulate fast let-down
