Lenovo™ ThinkPad L470

THE POWER TO MOVE FORWARD WITH THE VERSATILITY TO REACH BACK

A powerful performer – Built for Legacy Business means you can rely on your ThinkPad L470 to get things done quickly, reliably, and securely.

Designed to offer a fundamental enterprise solution with legacy technology, the ThinkPad L470 14" business laptop will power you through your day. Get great performance, legendary reliability, and enterprise-worthy security from this versatile business machine.

WHY YOU SHOULD BUY THE LENOVO™ THINKPAD L470

Built for Legacy Business

The processor and memory will help you get things done quickly and easily, while enjoying the comfort and security you expect from a ThinkPad laptop.

Tough Enough for Any Job

Tested against 12 military-grade requirements and passing more than 200 quality checks, the L470 is engineered to survive the bumps and bruises of life.

Built on a Clean Foundation

L470 is now available with Microsoft Windows 10 Pro Signature Edition, which eliminates trialware and unwanted apps. No distractions for end users, easy to provision by IT Pros.

Explosive Power Without Volatility

Intel® Optane™ technology lets you release the true power of the Intel® Core™ processors, eliminating bottlenecks with fast storage memory that nevertheless stays non-volatile. Kick it into high gear, and don't look back.

Data's Just a Click Away

With on-board LTE-A (4G) connectivity – even when you're out of WiFi range, you can still access your data and apps with a simple click.

Amp Up Your Graphics

An optional discrete graphics card means your L470 will have more processing power to handle more graphics-intensive apps. Rely on a dedicated processor to rev up your graphics capability without draining precious processing power from your software.

WHO NEEDS THE LENOVO™ THINKPAD L470?

1. Business users who recognise the benefits of a powerful enterprise business laptop that will simply power them through their day.
2. Users who are less discerning about devices and technology, who just want the shortest, reliable route to getting the job done.
3. Professionals who see technology neutrally, but are aware that it helps boost their efficiency and connectivity – and will choose devices according to peer recommendation.
