*Independent lab testing compared to Philips Avance HR2195
**Test conducted by an independent consumer research agency among 100 consumers based on a 4 week home placement test in Germany and Korea

Highlights

More power for smoother blends

Finer blending of fruit and vegetables, thanks to our 1400 W motor.

Unlocks more nutrients

We developed our ProBlend 6 3D technology to ensure that all of the ingredients in your smoothie are finely blended — so the nutrients in fruit, vegetables and nuts are unlocked from the cell structure and easily absorbed by your body.

Up to 35,000 RPM

35,000 RPM for excellent blending and even healthier smoothies

Large-capacity glass jar

The large 2 litre jar has a working capacity of 1.8 litres for deliciously blended smoothies to share with the whole family or save for later.

Choose your blending speed

From gentle blending for soft fruits, to a burst of power for harder fruit and vegetables — it's up to you with our variable manual speed options.

Smoothies preset programme

Smoothies preset programme makes homemade smoothies easy.

Dishwasher safe, easy to clean

All detachable parts of your Philips blender are dishwasher safe — except for the blade unit, which can be easily rinsed clean. The base can be wiped clean if needed.

Detachable blender blades

To clean the blender blades, simply detach them from the blender jar and rinse. However, to preserve their sharpness, the blades cannot be cleaned in the dishwasher.

Our promise of quality

You enjoy a 2 year worldwide warranty on our blenders — which is our guarantee of long-lasting quality and operation.

Specifications

General specifications
