

Philips PerfectCare
Steam iron

2400 W
45 g/min continuous steam
180 g steam boost
SteamGlide Plus soleplate

GC3920/21

Easier and faster without temperature settings

100% safe even on delicate fabrics

Iron everything from jeans to silk in one go with OptimalTEMP technology, the perfect combination of powerful steam and temperature for faster crease removal with no risk of burn or shine. Ironing is now easier and faster than ever!

Carefree ironing, no temperature setting required
- Safe on all ironable fabrics
- Iron from jeans to silk; no need to adjust temperature
- Safe to leave the hot soleplate on the ironing board
- Tested and approved by textile experts

Easier and faster ironing
- The fastest glide from SteamGlide Plus soleplate
- 2400 W for quick heat up
- Steam output of up to 45 g/min for better crease removal
- Up to 180g steam boost to remove stubborn creases easily

Comfortable ironing
- Iron switches off automatically when left unattended
- Drip-stop system keeps your garments spotless while ironing
- Easy-to-use calc-clean for long-lasting steam performance

PHILIPS

2400 W 45 g/min continuous steam, 180 g steam boost, SteamGlide Plus soleplate

GC3920/21

Highlights

OptimalTEMP technology

Philips steam irons with OptimalTEMP deliver the most effective combination of temperature and steam, no matter the fabric. Tough on heavy cottons, gentle on delicates. It's safe to leave on any ironable fabric or even on your ironing board, no burning and no shine guaranteed. Ironing is now easier, faster and safer than ever!

Safety auto off

The steam iron shuts off automatically when left unattended, saving energy and providing extra safety. It will switch off after 2 minutes when left standing on its heel rest, soleplate or sides.

No temperature setting needed

Philips steam irons with OptimalTEMP make your ironing easier and faster because they require no temperature setting. Iron everything from jeans to silk, from linen to cashmere safely, in any order, without waiting for the temperature to adjust or pre-sorting clothes.

Safe rest

Innovative OptimalTEMP technology guarantees no burn on all ironable fabrics. As well as the reassurance this provides whilst ironing, it also means you can leave the hot iron soleplate directly on your cotton ironing board without causing any damage. This helps to reduce any discomfort to your wrists, as you won't need to lift the iron to and from its base as often

Approved by experts

OptimalTEMP technology has been tested and approved by independent textile experts for its excellent ironing performance. The Woolmark seal of approval ensures a product is safe to use on every wool fabric.

SteamGlide Plus soleplate

Our exclusive SteamGlide Plus soleplate - with its advanced titanium layer and 6-layer coating - delivers ultimate gliding performance over any fabric. Non-stick, scratch-resistant and easy to keep clean
