wireless portable speaker

- 10 W, 10 hr
- Long Bluetooth range
- Waterproof, dustproof
- Quick charge option

BT6900B/00

Music never stops

My music never stops. EverPlay wireless portable speaker keeps playing all the time without interruption thanks to the strong Bluetooth connection and intuitive charging options. Its custom fabric makes it beautiful as well as super durable

Benefits

Powerful sound
- Big sound from front-firing neodymium speaker
- Bass radiators for extra bass boost and extension
- Anti-clipping function for loud, distortion-free music

Strong Bluetooth connection
- Wireless music streaming via Bluetooth
- Strong Bluetooth connection up to 30 m or 100 ft
- Built-in microphone for hands-free phone calls

Intuitive charging
- Quick-charge recharges speaker 3 times faster
- Battery indicator to easily view power level
- USB cable doubles as a strap

Super durability
- Durable build – shockproof, dustproof and waterproof (IP57)
- High-performance DuraFit fabric

PHILIPS

Features

Anti-clipping function

Anti-Clipping lets you play music louder and keeps the quality high, even when the battery is low. It accepts a range of input signals from 300 mV to 1000 mV and keeps your speakers safe from damage by distortion. This built-in function monitors the musical signal as it goes through the amplifier and keeps peaks within the amplifier's range, preventing the audio distortion caused by clipping without affecting loudness. A portable speaker's ability to reproduce musical peaks decreases along with battery power, but anti-clipping reduces peaks caused by low battery, keeping music distortion-free.

Wireless music streaming

Bluetooth is a wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/ iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can easily enjoy your favourite music and sound from videos or games wirelessly on this speaker.

30 m Bluetooth range

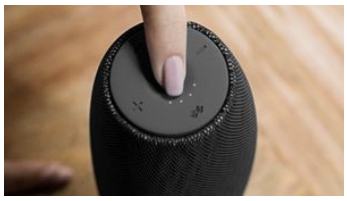

Move freely around with your smart phone, without worrying about dropping your music. EverPlay speaker offers an incredibly stable and long range Bluetooth connection up to 30 metres or 100 feet, three times faster than industry standards. The speakers are equipped with a sensitivity antenna and radio frequency filter to minimise background interference.

Quick charging

Charging the speaker usually takes quite some time. EverPlay offers a quick-charge option that can recharge the speaker three times faster than a normal USB adapter. By using a Qualcomm Quick-Charge adapter (not included), which is commonly used in new Android phones, to charge the speaker, the charging time is much faster.

Battery indicator

Finally, a Bluetooth speaker that provides a simple, clear way to see how much remaining power you have! With EverPlay, simply push the power button to see how much battery is left.

Durable build

EverPlay speaker is super durable and features dust, shock and water resistance. Dust cannot interfere with the operation of the speaker. And it is able to withstand immersion in water up to 1 metre for up to 30 minutes. This means that a session in the shower, getting caught in the rain or a quick drop into a body of water will not cause damage. Under Shockproof designation, this product is tested in a "Torture Chamber" to undergo a roller swing test with simulated 5-year product life-time reliability. EverPlay is truly durable!

DuraFit Fabric

The DuraFit fabric covering the speaker provides both functional and aesthetic benefits. With upper rubber overlays covering a matching accent-coloured cloth, the anti-slip, scratch-resistant and washable material offers additional protection, while the unique rhombus mesh pattern also gives it a more modern, sophisticated style.

Specifications
