PHILIPS

Gaming keyboard with Ambiglow

High-speed mechanical keys Ambiglow Blue backlit keys, 5 extra dedicated macro keys, Silver alloy surface

SPK8401SQS/93

Highlights

Fast mechanical switches

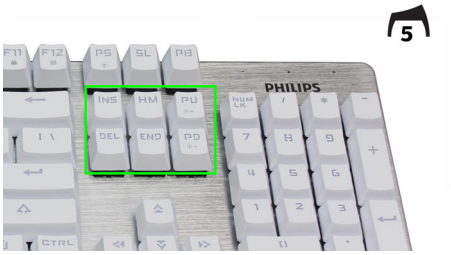

The most popular mechanical switches for gaming keyboards, Cyan mechanical switches offer gamers a light tactile clicky key for rapid activation and performance.

Full n-key rollover

Fast complex gaming key strokes demand advanced performance. With full N-key rollover every key is registered independently without confusion so that each keystroke is correctly registered regardless of how many other keys are being pressed or held down at the time.

5 additional macro keys

Your keyboard is your control. You dial it in and customize for fast action. An additional five macro keys gives you the customization you need to gain an edge.

Ambiglow

Ambiglow Blue color backlit keys for cool looks

Anti-microbial keys

Keep it clean for long durable use featuring a built-in antimicrobial protection which inhibits growth of microbes, such as bacteria, that can cause stains and odors.

Water resistant keys

Life can be messy. With this water resistant keyboard, the occasional spill or spray off is no problem. These keyboards are built to last.

50 million keystroke lifespan

How long does it take to get to 50 million keystrokes? A long time. Familiar and reliable this keyboard is built to last for many years of fast action.

Alloy surface design

Everything about this keyboard is built to last for rugged high performance use, even down to the keyboard surface. The Alloy surface is designed for high durability, superior rigidity and looks great too.
