Highlights

2 Megapixel camera

Capture and enjoy precious memories in clear and sharp picture quality with 2 megapixel resolution. Vibrant, colorful pictures are just a click away.

Dual SIM

Organize your life better and keep your contacts separate by using 2 different phone numbers. With Dual SIM, you don't need to carry 2 phones around.

Stylishly compact
Make a bold statement and express yourself with your Philips mobile phone that comes with a trendy design and sleek finish. Be a trend-setter, not a follower!

2.4" QVGA display
Experience true color with your phone's 2.4" QVGA screen.your phone will display vibrant colors and vivid images in all your photos and graphics for endless multimedia fun and excitement.

Bluetooth stereo music
Your Philips mobile phone supports A2DP Bluetooth Profile. It lets you enjoy your favorite tunes wirelessly and in high quality stereo music from your Bluetooth headphones.

Radio Data System (RDS)
The Radio Data System (RDS) lets you tune into radio stations without having to remember the frequencies. In standard mode. RDS displays the station name instead of the transmission frequency, facilitating quick and easy tuning. RDS also allows stations to send text messages such as news and station information directly to the radio display. Commonly used in Europe, RDS text is sent out on the same frequency the radio station broadcasts on. You can choose either the basic RDS display (station name) or subscribe to additional text-based services.
