Highlights

Special-purpose appliance bulb
Philips fridge bulbs can be used in fridges, freezers and similar places subject to low operating temperatures. Easily replace your appliance bulbs with a Philips fridge bulb for a long, useful life.

Replaces lustre incandescents
With its beautiful design and familiar shape, this energy-saving LED bulb is the perfect sustainable replacement for traditional incandescent bulbs.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

Learn about light

Colour temperature: light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energising light. CRI: the colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures that colours are shown as true and natural.

Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

No visible flicker
When your light flickers in quick succession it could be hard on the eyes, cause headaches and even set off an attack for those with photosensitive epilepsy. It's both unpleasant and unnecessary. LEDs can flicker because of their rapid response to the driver current. However, because Philips LEDs are designed so that variations in your driver current's output are minimised, they eliminate the factors that cause flicker. So, you won't see it, not even a hint.

Specifications

Bulb characteristics
- Shape: Lustre
- Cap/fitting: E14
- Dimmable: No
- Voltage: 220–240 V
- Wattage: 1.7
- Wattage equivalent: 15

Power consumption
- Energy efficiency label: A++
- Power consumption per 1000h: 2 kW·h

Light characteristics
- Light output: 150 lumen
- Beam angle: 240 degree
- Colour: Warm White
- Colour temperature: 2700 K
- Light effect/finish: Warm White
- Colour rendering index (CRI): 80
- Starting time: <0.5 s
- Warm-up time to 60% light: Instant full light
- EyeComfort: Eye Comfort

Durability
- Lifetime of lamp: 15000 hour(s)
- Number of switch cycles: 50000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

Bulb dimensions
- Height: 59 mm
- Width: 25 mm

Other characteristics
- Mercury content: 0 mg
- Power factor: 0.4
- Lamp current: 20 mA
- Lamp Classification Risk Group: RG0

Rated values
- Rated power: 1.7 W
- Rated luminous flux: 150 lumen
- Rated lifetime: 15000 hour(s)
- Rated beam angle: 240 degree

Issue date 2018-11-09

Version: 4.0.1
