Highlights

6,500 K [LED Lamps]

This bulb has a colour temperature of 6,500 K, which is the highest colour temperature available in this bulb category. It therefore gives you a lighting effect that is the closest to that of natural daylight. This will help you to focus and experience every detail.

Light all around

Thanks to its innovative, vintage design shape, this LED bulb prevents the shadow that normally appears at the beam spread edge. The result? Natural warm white light all around.

Replaces halogen reflector

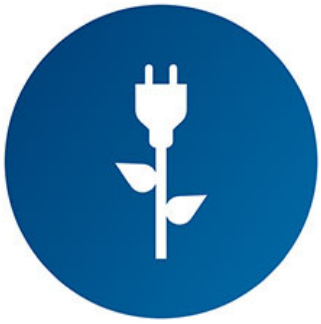

With its beautifully shaped design and familiar dimensions, this is a contemporary lighting, LED capsule. The perfect sustainable replacement for traditional halogen spots.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

Perfect for accent lighting

Modern lighting with a familiar wide-angle light output (36 degrees), this LED spot is suitable for both accent lighting and general-purpose lighting. It can be used in recesses and track light fixtures, and is ideal for use in kitchens, kitchen island lighting, living rooms and dining rooms.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

Learn about light

Colour temperature: light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energising light. CRI: the colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures that colours are shown as true and natural.

Specifications

Bulb characteristics
- Cap/fitting: G9
- Dimmable: No
- Voltage: 220–240 V
- Wattage: 1.9
- Wattage equivalent: 25

Power consumption
- Energy efficiency label: A++
- Power consumption per 1000h: 2 kW·h

Light characteristics
- Light output: 204 lumen
- Colour: Warm White
- Colour temperature: 2700 K
- Colour rendering index (CRI): 80
- Starting time: <0.5 s
- Warm-up time to 60% light: Instant full light

Durability
- Number of switch cycles: 30000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

Bulb dimensions
- Height: 48 mm
- Width: 16.5 mm

Other characteristics
- Mercury content: 0 mg
- Lamp current: 18 mA
- Lamp Classification Risk Group: RG0
