Highlights

Learn about light

Color temperature: light can have different color temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energizing light. CRI: the color rendering index (CRI) is used to describe the effect of a light source on color appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures colors are shown as true and natural.

6500K [LED Lamps]

This bulb has a color temperature of 6500K, and is the highest color temperature available in this bulb category. It therefore gives you a lighting effect that is the closest to that of natural daylight. This will help you focus and experience every detail.

A simple LED for everyday use

The Philips everyday LED is the perfect bulb for your basic lighting needs. It provides the beautiful light and dependable performance you expect from LED at an affordable price.

Replaces globe halogen

With its beautifully shaped design and familiar dimensions, this is a modern lighting LED globe. The perfect sustainable replacement for traditional halogen globes.

Instant On

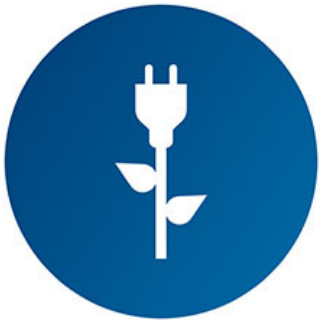

No need to wait: Philips LED light bulbs provide their full level of brightness immediately they are switched on. Just by turning the switch, your room is at full brightness. There is no slow starting or waiting.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps protect the environment.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

Specifications

Bulb characteristics
- Shape: Globe
- Cap/fitting: E27
- Dimmable: No
- Voltage: 220 - 240 V
- Wattage: 8.5
- Wattage equivalent: 60

Power consumption
- Energy efficiency label: A+
- Power consumption per 1000h: 9 kW·h

Light characteristics
- Light output: 806 lumen
- EyeComfort: Eye Comfort
- Beam angle: 150 degree
- Color: Cool Daylight
- Color temperature: 6500 K
- Light effect/finish: Cool Daylight
- Color rendering index (CRI): 80
- Starting time: <0.5 s
- Warm-up time to 60% light: Instant full light

Durability
- Lifetime of lamp: 15000 hour(s)
- Number of switch cycles: 50000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

Bulb dimensions
- Height: 128 mm
- Width: 95 mm

Other characteristics
- Mercury content: 0 mg
- Power factor: 0.7
- Lamp current: 45 mA

Rated values
- Rated power: 8.5 W
- Rated luminous flux: 806 lm
- Rated lifetime: 15000 hour(s)
- Rated beam angle: 150 degree
