Durable LED accent lighting with a focused beam

True incandescent-like warm white light

Philips LED spots provide a focused bright beam, a long life and significant energy savings

Choose for the high-quality light
- Cool, white light
- Homogen beam pattern
- Learn about light

Choose a simple replacement for your old bulbs
- No UV or InfraRed

Choose for a sustainable solution
- Long-life bulbs – Last up to 15 years
- Better for your wallet and your planet

Create the right light for your home
- Perfect for accent lighting

PHILIPS

Spot
3 W (20 W) GU5.3, Warm white, Non-dimmable

8718696710715

Highlights

Cool, white light

This bulb has a colour temperature of 4,000 K, providing you with a cool, energising light, perfect for creating an inviting ambience to host friends or to wind down with a book.

Homogen beam pattern

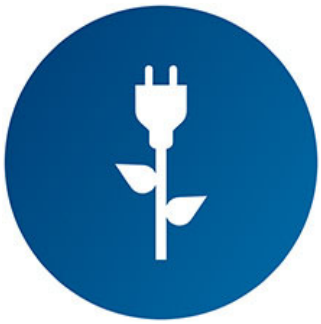

The Single Optic lens provides a superb light beam without the shadows that normally appear at the beam spread edge, as happens with traditional halogen spots.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

Perfect for accent lighting

Modern lighting with a familiar wide-angle light output (36 degrees), this LED spot is suitable for both accent lighting and general-purpose lighting. It can be used in recesses and track light fixtures, and is ideal for use in kitchens, kitchen island lighting, living rooms and dining rooms.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

Learn about light

Colour temperature: light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energising light. CRI: the colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures that colours are shown as true and natural.

Specifications

Bulb characteristics
- Shape: Spot
- Cap/fitting: GU5.3
- Dimmable: No
- Voltage: 12 V
- Wattage: 3
- Wattage equivalent: 20

Power consumption
- Energy efficiency label: A++
- Power consumption per 1000h: 3 kW·h

Light characteristics
- EyeComfort: Eye Comfort
- Light output: 230 lumen
- Beam angle: 36 degree
- Colour: Warm White
- Colour temperature: 2700 K
- Colour rendering index (CRI): 80
- Starting time: <0.5 s
- Warm-up time to 60% light: Instant full light

Durability
- Lifetime of lamp: 15000 hour(s)
- Number of switch cycles: 50000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

Bulb dimensions
- Height: 46 mm

Other characteristics
- Mercury content: 0 mg
- Power factor: 0.6
- Lamp current: 385 mA
