# Highlights

### Say goodbye to plaque

Click on the C3 Premium Plaque Control brush head to experience our deepest clean. With soft flexible sides, the bristles contour to the shape of each tooth to provide 4 x more surface contact*** and remove up to 10 x more plaque from hard-to-reach areas*.

### Care for your gums

Click on the G3 Premium Gum Care brush head to improve your gum health. Its smaller size and targeted gumline bristles deliver gentle yet effective cleaning along the gum line, where gum disease starts. It's clinically proven to deliver up to 100% less gum inflammation* and up to 7 x healthier gums in just two weeks.*

### Whiter teeth, fast

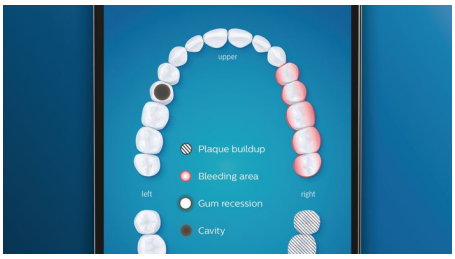

Click on the W3 Premium White brush head to remove surface stains and reveal your whitest smile. With its densely packed central stain removal bristles, it's clinically proven to remove up to 100% more stains in just three days.**

### TongueCare+ tongue brush

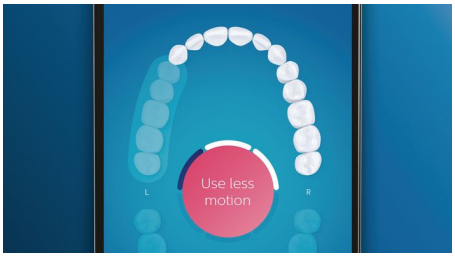

Click on the TongueCare+ tongue brush to gently remove odour-causing bacteria from the pores of your tongue. Its 240 specially designed MicroBristles get between all your tongue's ridges and grooves to remove bacteria and debris that lead to bad breath. Team with our antibacterial BreathRx tongue spray for superior cleaning and super-fresh breath.

### Focus areas and goal-setting

Any trouble areas your dentist has pointed out? We'll highlight them on your in-app 3D mouth map and remind you to pay extra attention to these areas.

### Never miss a spot

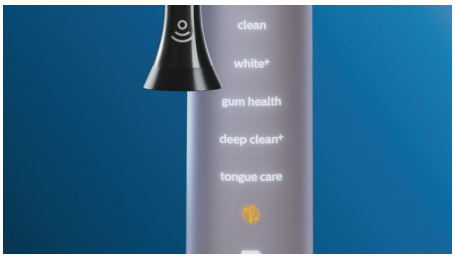

The Philips Sonicare app lets you know when you've achieved a thorough clean and coaches you to be a better, more mindful brusher.

### Easy does it

With an electric toothbrush, you let the brush do the work. We've built a scrubbing sensor into your handle as a gentle reminder to reduce scrubbing. This way, you can improve your technique and get a gentler, more effective clean.

### BrushSync mode pairing

Wondering which mode and intensity you should use? Wonder no longer. A microchip in your brush head tells your DiamondClean Smart sonic toothbrush which one you're using. So if you click on a gum-care brush head, for example, your toothbrush knows to select the optimal mode and intensity to provide gentle yet effective care for your gums. All you need to do is to press the power button.
