M8881WW/96

Highlights

Eco-conscious model with ECO+

Philips phones are energy efficient and designed to be respectful to the environment. When ECO mode is activated the emitted radiation is reduced by up to 60%, and up to 95% when the phone is charging. Whith ECO+ mode activation the radiation drops to zero.

Unique, genuine wood finish

Unique and genuine wood finish with natural color and grain

Calibrated keypad

The calibrated keypad allows you to clearly feel every keystroke whenever you are dialing a number or entering a phonebook contact.Detailed study of keypad materials and structures, as well as extensive user tests result in the right balance between the key pressing force and the key response to ensure precise dialing.

Comfortable handset

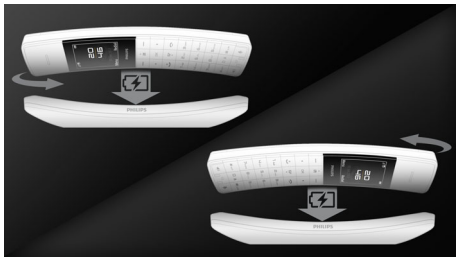

Sensually curved handset for pure balance and comfort

Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

Hassle-free charging

For reliability and convenience the handset can be charged in both directions of the docking station.

Privacy modes

Value your privacy and quiet at home? Easily disable the ringtones for specific "no call" times to enjoy peace and silence. An additional filtering function allows any number chosen from the phone book to still ring when calling, making sure that only "right" people can reach you. Thanks to call barring you can avoid expensive phone bill surprises by blocking calls to specific numbers, to numbers starting with certain digits (for example pay per call numbers) or to specific area codes.

Smart cable management

The smart cable management system cleverly hides the wires from sight. Intelligently designed concealed sockets and an internal cable guide ensure everything is clutter free and neatly tucked away.

Up to 60 min. message

With up to 60 minutes recording time on your answering machine, you'll never miss an important message.
