Highlights

Accurate control
Rheostat wheel with 8 heat settings (from 130 to 200°C) allows you to choose the temperature that suits your hair type

Ceramic coating & Even heat
Protective ceramic coating ensures even heat distribution and less hair damage for shiny & soft hair

Cool tip
The tip of the styler is made from a special heat insulating material to keep it cool; you can safely hold it while you're styling for optimal ease of use.

Natural looking curls
With the barrel diameter of 25 mm you can achieve a trendy curly look by creating natural looking, loose curls like no effort went into it.

1.8m cord
Convenient to use thanks to the 1.8m power cord length.

ThermoProtect temperature
The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

Cool Shot
A must-have professional function for hair stylers. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Professional 1500W
This 1500W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

Ionic Care
Give your hair instant care with ionic conditioning. Charged negative ions eliminate static, condition your hair, and smooth the hair cuticles to intensify hair's shine and glossiness.

Easy storage hook
The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use at home or when staying at a hotel.

Six heat & speed settings
The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

200°C professional temperature
This high temperature enables you change the shape of your hair, and gives you that perfect look you want

Removeable air flow filter
The removeable air flow filter of your hairdryer is easy to maintain. Simply click off to clean. Doing this regularly will prevent build up of dust and hair that can affect drying performance.
