- Main unit width: 180 mm
- Main unit height: 121 mm
- Main unit depth: 247 mm
- Main speaker dimensions (W x D): 150 x 125 mm
- Main speaker height: 238 mm
- Packaging width: 577 mm
- Packaging height: 312 mm
- Packaging depth: 185 mm
- Gross weight: 4.5 kg
- Net weight: 3.55 kg

Power
- Power supply: 100-240VAC, 50/60Hz

Highlights

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

Audio-in

The Audio in connectivity allows direct playback of Audio in content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set balanced, clear, powerful, warm and bright controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.
