PHILIPS

Steam iron
Steam 25 g/min T-ionicGlide soleplate, Safety Auto off + Anti-calc, 1100 Watts

GC4522/03

Highlights

Steam boost up to 210 g

The steam boost can be used for vertical steaming and tough creases.

Safety auto off

The steam iron shuts off automatically when left unattended. It will switch off after 8 minutes when left standing on its heelrest and after 30 seconds when left resting on its soleplate or sides.

Auto Steam Control

Auto Steam Control takes away your worry for selecting the amount of steam you need. Just select the temperature for the garments you're ironing and off you go.

Optimal weight

The iron has the optimal weight to move easily over any garment, making ironing less of a hassle and easy to constantly place the iron on the board and back to its heel rest.

Triple Precision Tip

The pointed tip on the Philips Azur Performer is very precise in 3 ways: it has a pointed tip, button groove and a sleek design of the nose. The Triple Precision tip enables you to reach even into the most tricky areas, e.g. around the buttons or between the pleats.

Self-Clean

In addition to the built-in calc container, the self-clean function of your soleplate will remove the most stubborn calc. A clean soleplate will improve your steam performance and ironing results.

Continuous steam up to 25 g/m

Continuous steam up to 25 g/m for good crease removal.

T-ionicGlide soleplate

T-ionicGlide is our best gliding and scratch-resistant, 5-star rated soleplate with integrated Titanium-Oxide layer.
