

Philips EasySpeed
Steam iron with Ceramic soleplate

Steam 15g/min;100g steam boost

Ceramic soleplate
Anti-calc
1100 Watts

GC1028/23

Fast, from start to finish

3 ways to speed up your ironing

This EasySpeed iron speeds up your ironing thanks to: triple precision tip, even heat distribution across the soleplate and continuous steam.

Comfortable ironing
- A fine spray evenly moistens the fabric
- Drip-stop system keeps your garments spotless while ironing
- Even steam distribution for efficient ironing
- Triple precision tip for optimal control and visibility

Longer lifetime
- Calc clean slider to easily remove scale out of your iron

Easily removes creases
- 100 g steam boost to remove stubborn creases easily
- Vertical steam for crease removal in hanging fabrics
- Continuous steam up to 25 g/m for good crease removal
- Ceramic soleplate for better gliding performance
- Power up to 2000 W enabling constant high steam output

PHILIPS

Steam iron
Steam 15g/min;100g steam boost Ceramic soleplate, Anti-calc, 1100 Watts

GC1028/23

Highlights

Steam boost up to 100 g

Steam boost up to 100g for fast removal of even the most stubborn creases.

Spray

The spray function produces a fine mist that evenly moistens the fabric, making it easier to iron out creases.

Calc clean slider

This steam iron can be operated with normal tap water and the calc clean slider makes it easy to remove any built-up scale out of your iron. To maintain the performance of your Philips steam iron, you should use this scale clean function once a month when using normal tap water.

Ceramic soleplate

Ceramic soleplate is scratch resistant, glides well and easy to clean.

Vertical steam

This Philips iron has a vertical steam function, for crease removal in hanging fabrics.

Continuous steam up to 25 g/m

Continuous steam up to 25 g/m for good crease removal.

Drip stop system

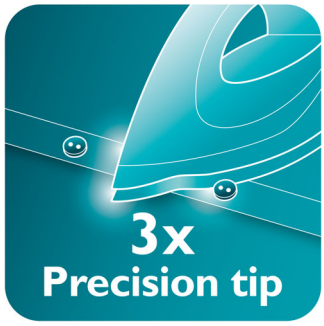

Drip Stop system lets you iron delicate fabrics at low temperatures without having to worry about stains from water droplets.

Even steam distribution

Thanks to the carefully crafted soleplate design, the steam is distributed evenly across the soleplate. This way you need less strokes to evenly moisten the garment and therefore less time to complete the ironing.

Triple precision tip

The tip of this Philips iron is precise in 3 ways: it has a pointed tip, button groove and a sleek design of the nose. Triple Precision tip enables you to reach even into the most tricky areas, e.g. around the buttons or between the pleats.
