HG694840NB Built-in Hob

Reduces your cooking time and saves you heating power

The unique flush burners in this gas hob deliver heat directly to the base of your cooking pan. This saves heating power, and increases cooking efficiency by up to 20%.

Flush design burners for optimal integration in hob surface

The unique design of the flush burners makes it possible to integrate them into the glass hob top, giving you a sleek surface that is both stylish and very easy to clean.

Simple to clean flame spreader.

The simple one-piece flame spreader makes it very easy to clean the hob. In the case of spills or stains you can easily clean it and also place it in the dishwasher.
