Highlights

Ergonomically designed trainer

Trainer handles help your toddler to hold the cup and drink independently. These handles are not only shaped for little hands to grab easily, they are also rubberized for a non-slip grip.

Natural latch on

The wide breast shaped nipple promotes a natural latch on similar to the breast. Designed to give a more comfortable and contented feed for your baby.

Skin-soft teat

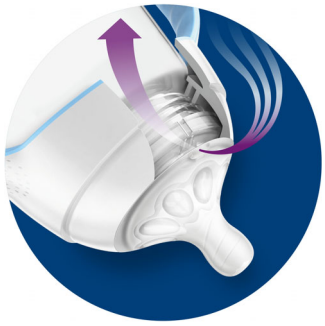

The skin-soft nipple material closely resembles the feeling of the breast, making it easy for your baby to combine breast and bottle feeding.

Flexible spiral teat design

The spiral design combined with our comfort petals inside the nipple increases softness and the flexibility allowing natural tongue movement without nipple collapse. Designed to give your baby a more comfortable and content feeding.

Anti-colic valve technology

Reduces fussing and discomfort by venting air away from baby's tummy.

Interchangeable

The Sip, no drip soft spouts are Interchangeable with Natural nipples. This gives you flexibility to move from bottle to cup whenever your child is ready.

Cup is dishwasher safe

All parts are dishwasher safe for convenience

Compatibility across the range

The new Philips Avent cup is compatible with the Philips Avent Natural and Classic+ bottle range (excluding the glass bottle), and all other Philips Avent cup (excluding the Natural Drinking Cup).

BPA Free

This Philips Avent cup is made from BPA free material.
