Highlights

Powerful continuous steam

Powerful continuous steam for fast crease removal

AirStretch Technology

Achieve better ironing results faster, with air suction. This innovative AirStretch technology uses adjustable suction force to gently pull and stretch the garment while keeping it close for deeper steam penetration. This combination helps you to achieve great ironing results with only one hand.

SmartFlow steam plate

SmartFlow technology ensures great ironing results as the optimized steam flow heats up the steam plate. This keeps the steam plate at an optimal, safe temperature for all fabrics while effectively preventing wet spots.

Brush accessory

Use the brush accessory with thicker garments like coats for better steam penetration and a smoother finish.

3 steam settings

Set your preferred steam setting for optimal results on different fabrics. Use low steam for thinner fabrics and a more powerful setting for thicker fabrics and coats.

Hang&Lock

Our unique Hang&Lock feature holds your clothes hanger in place for convenient steaming. It prevents the hanger from swinging or falling off.

Perfect pleats made easy

Perfect pleats make easy with pleat making accessory.

Safe on all ironable fabrics

The steamer is safe to use on all ironable fabrics and garments. The steam plate can be safely pressed against any clothing with no risk of burning – a great solution for delicate fabrics, like silk.

Easy Rinse descaling

Prolong the lifetime of your appliance by using the Easy Rinse descaling function regularly.
