

Sonic electric toothbrush - Dispense

- 3 modes, 3 intensities
- 1 brush head
- With pressure sensor
- UV brush head sanitizer

HX9181/25

Their techniques may vary, but their results won't

Our first brush with Adaptive Cleaning Technology

At the core of this technology are two components: the AdaptiveClean brush head and an intuitive pressure sensor. Both features help your patients to brush smarter.

Benefits

Provides a superior clean
- Patented Sonicare toothbrush technology
- AdaptiveClean brush head
- Customizable brushing experiences

Guides you to follow dental recommendations
- Intuitive pressure sensor

Proven to improve oral health
- UV sanitizer
- Quadpacer
- Smarttimer

PHILIPS

Features

Sonic technology

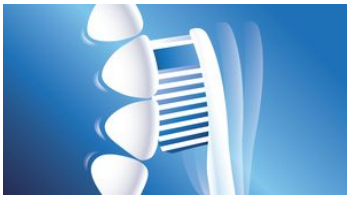

Drives fluid between the teeth and along the gumline for a powerful yet gentle clean.

AdaptiveClean brush head

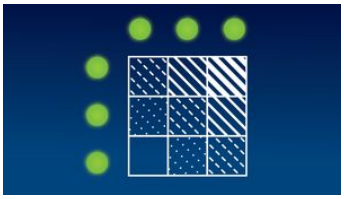

Soft, flexible sides made of rubber allow the bristles to conform to the unique shape of patients' teeth and gums to provide up to 4x more surface contact*. The brush head's flexibility helps the bristles gently track along the gumline and absorb excessive brushing pressure. Enhanced sweeping motion delivers a unique in-mouth feel and superior cleaning along the gumline and in hard-to-reach areas*. Proven to remove 10x more plaque than a manual toothbrush in hard-to-reach areas*.

Intuitive pressure sensor

If too much pressure is applied, the handle gently pulsates to tell patients they are brushing too hard to guide proper technique. In a study of U.S. patients, 7 out of 10 aggressive brushers tested reduced their brushing pressure when using the pressure sensor.

Custom brushing experiences

Three intensity settings and three cleaning modes provide optimal comfort and performance for a more personalized brushing experience, encouraging better compliance. The three-minute Deep Clean mode delivers an exceptional clean in hard-to-reach places. It's the perfect mode for patients who need to pay extra attention to trouble spots.

UV sanitizer

Kills up to 99% of bacteria and viruses*. Can be available as an accessory in one of the dispensing SKUs.

Quadpacer

Thirty-second interval timer encourages thorough brushing of each quadrant of the mouth.

Smarttimer

Two-minute timer helps ensure dental professional recommended brushing time.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Modes

Clean	For exceptional everyday clean
