Smart USB Desktop Charger, 40W, 5 Port

Part No.: 73306

Description

- 5 x USB Type A Ports with Smart IC function – 5V up to 2.4A
- International voltage input 100-240v
- 8A / 40W Total output power
- Protection against overvoltage, overloading and short circuits
- 2 Year Warranty

The 5 Port Smart USB Desktop Charger allows you to charge up to 5 tablets, phones or other USB devices a the same time.

This versatile device means you can replace your collection of USB adapters with just one handy unit. Smart IC support means that it can also recognize devices intelligently and automatically adjust charging power to sustain battery life as well as satisfying the charging needs of various devices simultaneously.

Each port is capable of 2.4A simultaneously meaning that each device is charged as their maximum speed.

Package Contents:
5 Port Smart USB Desktop Charger, 40W
UK Plug to C7 – 1.5m
LINDY User Manual

Technical details

- 5 x USB Type A Female ports with Smart IC
- Input: 100-240V 50/60Hz AC – IEC C8 Female
- USB Ports 1-5 with Output: 5V - 2.4A max per port
- Overall output: 8A / 40W max
- Over current (8000mA max), over voltage & short circuit protection
- Low standby power consumption <0.3W
- Operating Temperature 0°C to 40°C

- Storage Temperature -30°C to 70°C
- Level 6 ErP Compliant
- Colour: White
- WxDxH: 91 x 58 x 26mm
