Highlights

No temperature setting needed

Iron everything from jeans to silk without adjusting the temperature. Thanks to OptimalTEMP, no dial or settings are needed. So there's no more pre-sorting the laundry, or waiting for the iron to heat up and cool down. You're ready for any fabric, anytime

No burns – guaranteed

Thanks to OptimalTEMP technology, we guarantee this iron will never cause burns to any ironable fabric. You can even leave it resting face down on your clothes or ironing board. No burns, no shine. Guaranteed.

Approved by experts

The Woolmark Gold seal of approval ensures a product is safe to use on any and every wool fabric. Our steam irons with OptimalTEMP technology are the first and only irons, from any brand, to earn this level of certification.

Ultra-powerful steam

Strong, continuous steam tackles even the thickest fabrics with ease. Watch stubborn creases melt away with an extra steam boost just where you need it. This extra steam is perfect for vertical steaming to refresh clothes and curtains, too.

Intelligent automatic steam

Our DynamiQ smart sensor knows exactly when and how the iron is moving, delivering powerful steam where you need it most – for easier ironing and faster results.

Ultra-light weight iron

The iron is amazingly light and comfortable to handle, gliding easily and reducing wrist strain. Its minimal weight also makes it easy and effective for vertical steaming of curtains and hanging clothes.

T-ionicGlide soleplate

T-ionicGlide is our best soleplate for ultimate gliding performance and maximum scratch resistance. Its stainless steel base is twice as hard as a regular aluminum base, and our patented 6-layer coating with advanced titanium layer glides effortlessly for the fastest results.
