BalanceBox® 400-2

Height adjustable mount for interactive large format display solutions

Adjust your display to any vertical position with just your fingertips. The BalanceBox® gives you ultimate comfort, is extremely reliable and safe and lets you get the most out of your audio visual experience.

Adjust the height of your display with the lightest of touches, and no electrical connection needed! The trend in today's audio visual market is interactivity; touchscreen displays in class rooms, trainings centres, video conferencing rooms and on the production floor. To allow every participant to enjoy the benefits of the interactive system, the BalanceBox® is an innovative height adjustable mount solution based on a unique technology with great features.

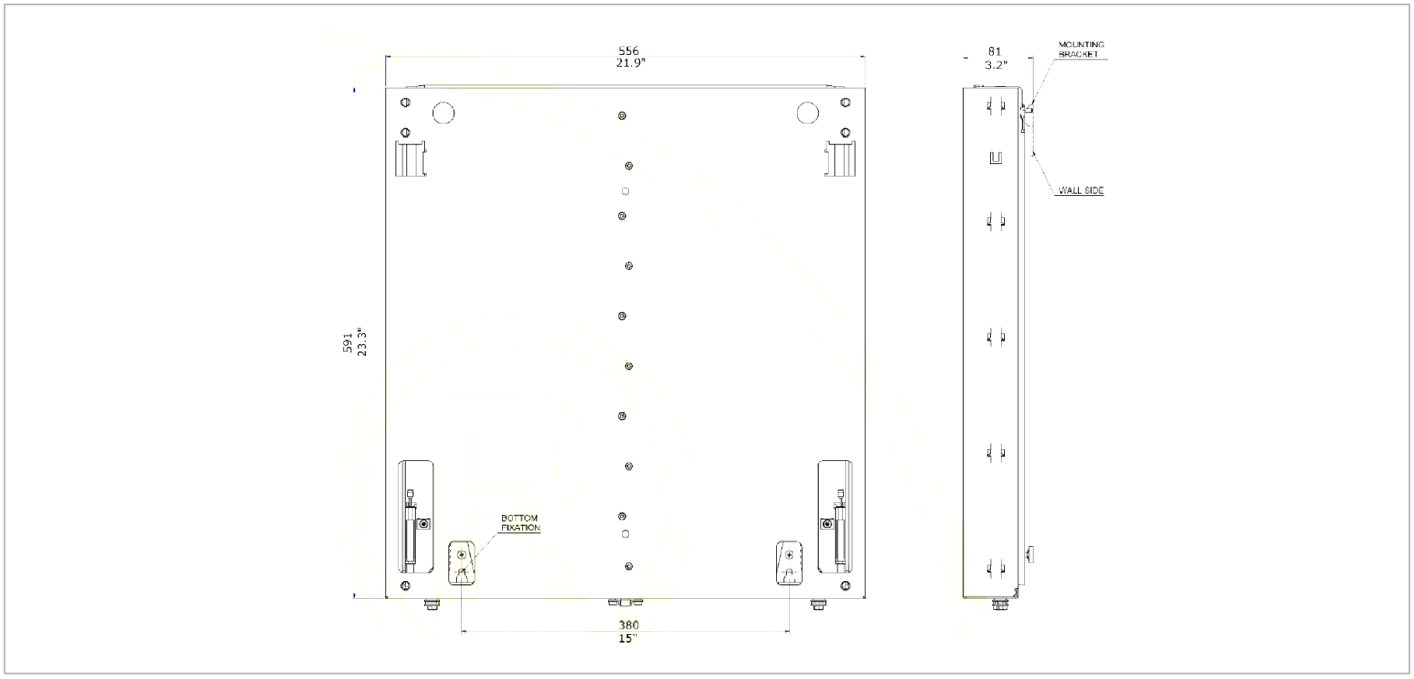

NEC MultiSync® P754Q mounted on BalanceBox® 400-2

Delivering Genuine Benefits

- **Easy touch movement** – move up and down with only a light hand touch and no electricity needed.
- **Perfect fit to your needs** – the display remains steady in the precise position you select to suit your working style.
- **Flexible installation** – compact design allows the unit to be mounted directly onto a wall, interface brackets allow any screen size to be fitted.
- **Lowering your maintenance effort** –easy initial balance adjustment with just two screws guarantees a long term maintenance-free operation.
