WorkForce AL-M310DN

DATASHEET / BROCHURE

A4 mono laser printer delivering high-performance for small to medium-sized workgroups, with network connectivity for easy office integration.

Ideal for busy workgroups wanting low-cost results, this printer delivers fast, flexible, high-quality printing. With Gigabit Ethernet connectivity and both PCL6 and PostScript 3 emulations, it offers easy business integration. High-yield toner packs also help to keep the cost of printing low.

Keep productivity high and save your staff from hassle

An up to 35ppm print speed and first page out in less than 6.4 seconds[1], means you can count on this printer for fast results, even at 1200 x 1200dpi. Benefit from easy sharing across workgroups with built in Gigabit Ethernet connectivity, and take advantage of high media versatility with support for A4, A5, A6 and headed paper, plus envelopes, transparencies and postcards.

High durability

It has a duty cycle of up to 20,000 pages[2], so businesses can be confident that their investment in the Epson range is a sound one.

Ease of use

Large maximum paper capacity (max 850 sheets) and toner yield (up to 6,100 pages[3]) means less time spent re-stocking the machine. Just push a button to open the device for a simple and logical way to remove and replace the toner, so staff spend less time replacing supplies.

Advanced connectivity, integration and security

Place your device next to workgroups or on desks thanks to its smaller footprint. PDL printer emulations including PCL6, PostScript 3 and PDF 1.7, along with the advanced IPv6 protocol and Gigabit Ethernet support, make this printer ideal for business environments. Advanced IPSec and SSL support help improve security when printing sensitive materials, and print securely and confidentially with Email Print for Enterprise compatiblity[4].
