- Automatically selects optimal mode for ultimate results**
- Tested to meet your oral health needs
- Philips Sonicare's advanced sonic technology

Designed to optimize performance
- Always know when to replace. Always get an effective clean.
- Click-on design for simple brush head placement

Highlights

Whiter teeth, fast

The DiamondClean's stain-removal pad, made from densely-packed diamond-shaped bristles, removes surface stains caused by food and drinks. You'll notice a whiter smile, up tp 100%*, in just 7 days.

BrushSync™ mode-pairing

You'll always get the best possible clean with our BrushSync™ mode-pairing feature**. The W DiamondClean brush head syncs with your BrushSync™ enabled Philips Sonicare toothbrush handle**, selecting the optimal brushing mode and intensity level for exceptional whitening. All you need to do is start brushing.

Brush head replacements

Brush heads become less effective after 3 months of use, but with BrushSync™ you'll be reminded before this happens. Your smart toothbrush will track how often and how hard you brush, and will notify you when it's time for a replacement. Don't have a smart Philips Sonicare toothbrush? Just monitor your blue replacement bristles, and when they turn white you'll know it's time for a fresh brush head.

Easy to click-on

Your DiamondClean brush head fits perfectly with any Philips Sonicare toothbrush handle, except PowerUp Battery and Essence. Simply click on and off for easy replacement and cleaning.

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

Brushing with peace of mind

All Philips Sonicare brush heads are safe and gentle on teeth and gums. During tests, each brush head is put through its paces to ensure durability and an exceptional performance every time you brush.
