Choose for a sustainable solution
- Better for your wallet and your planet
- Better for your wallet and your planet

Comfortable LED light that is easy on your eyes
- Designed for the comfort of your eyes
- No visible flicker

PHILIPS

Features

Incandescent-like warm white

This bulb has a colour temperature of 2,700 K, providing you with a warm, tranquil atmosphere, perfect for relaxing. This 2,700 K light is ideal for home lighting design

A simple LED for everyday use

The Philips everyday LED is the perfect bulb for your basic lighting needs. It provides the beautiful light and dependable performance that you expect from LED at an affordable price.

Replaces standard incandescents

With its beautiful design and familiar shape, this energy-saving LED bulb is the perfect sustainable replacement for traditional incandescent bulbs.

Instant On

No need to wait: Philips LED light bulbs provide their full level of brightness immediately, as soon as they are switched on. Just by turning the switch, your room is at full brightness. There is no slow starting or waiting.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

Energy savings of up to 90%

LED technology provides energy savings of up to 90% compared with your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

No visible flicker

When your light flickers in quick succession it could be hard on the eyes, cause headaches and even set off an attack for those with photosensitive epilepsy. It's both unpleasant and unnecessary. LEDs can flicker because of their rapid response to the driver current. However, because Philips LEDs are designed so that variations in your driver current's output are minimised, they eliminate the factors that cause flicker. So, you won't see it, not even a hint.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Bulb characteristics

Dimmable	No
Type of glass	Frosted
Technology	LED
Intended use	Indoor
Lamp shape	Non-directional candle
Socket	E27

Bulb dimensions

Height	88 mm
Diameter	45 mm
Weight	0.028 kg

Durability

Nominal lifetime	15000 hour(s)
Number of switch cycles	50000
Average life (at 2.7 hrs/day)	15 year(s)
Lumen maintenance factor	0.7

Light characteristics

EyeComfort	Eye Comfort
Nominal luminous flux	150 lumen
Colour temperature	2700 K
Colour rendering index (CRI)	80
Starting time	<0.5 s
Warm-up time to 60% light	Instant full light
Colour consistency	6 SDCM
Nominal beam angle	150 degree
Light Colour Category	Warm White
Suitable for accent lighting?	No

Other characteristics

Lamp current	18 mA
Mercury content	0 mg

LED

Efficacy	83 K

Power consumption

Wattage	1.8 W
Power factor	0.4
Wattage equivalent	15 W
Energy efficiency label	A++
Power consumption per 1000h	2 kW h
Input voltage	230 V

Packaging information

Family	LED
Product family	Mainstream

Rated values

Rated power	1.8 W
Rated luminous flux	150 lumen
Rated lifetime	15000 hour(s)
Rated beam angle	150 degree
