- Connect to your Hue Bridge for full smart lighting control
- Control lights with your voice
- Installation-free dimming

Issue date: 2026-02-07 Version: 0.261

Highlights

Control lights away from home

The Hue app gives you complete control over your lights, even if you're not home. Switch your lights off and on remotely using just the app to ensure your home is always lit the way you want it.

Come home with light

Set your Philips Hue app to recognise when you're almost home. Before you even step out of your car or walk up the path, your selected smart lights turn on automatically.

Make it look like you're home

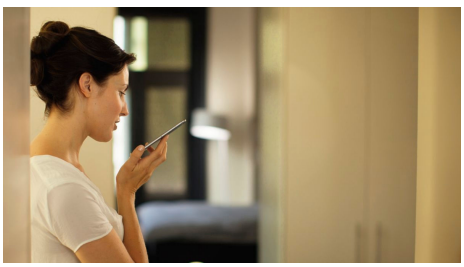

Use the Philips Hue app to schedule light routines whenever you're away. Your smart lights will turn on at the times you've selected, and sometimes a few minutes before or after, to truly mimic your presence in the house.

Connect to the Hue Bridge

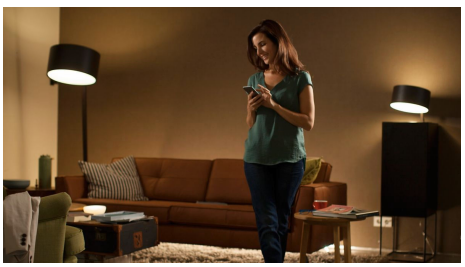

This product requires a connection to the Hue Bridge to unlock the full smart control and features. Control your lights using the Philips Hue app, set timers, routines, add or remove lights and more. *Hue Bridge sold separately

Control with your voice

When connected to the Hue Bridge, you can pair your lights with Alexa, Apple HomeKit, and the Google Assistant and control your lights using just your voice. Simple voice commands let you turn your lights on and off, dim or brighten your lights, and even set a light scene.

Installation-free dimming

Experience guaranteed smooth dimming with Philips Hue. Not too bright. Not too dark. Just right. No need for wires, an electrician or installation

Specifications
