ICY BOX **IB-246-C3**
USB Type-C™ Enclosure for 2.5" HDD/SSD

Cable included

Thanks to a thoughtful design the integrated USB 3.0 Type-C™ cable can be stored in the enclosure, making the usage of an external cable totally unnecessary. In addition, the enclosure needs only little space.

Are we there yet?

The copying of a huge amount of data is pending and nobody wants to devote their undivided attention to the copying process. The integrated LED shows us in stylish blue whether hard disk access and therefore the copying process is still taking place - so that you can concentrate on the important things.

Fast pit stop

Cover up - remove drive, insert new drive, cover down - done. The toolless mounting makes HDDs and SSDs quick and easy to install and easy to replace.
