i-tec Bluetooth Ergonomic Optical Mouse BlueTouch 245

i-tec Bluetooth Ergonomic Optical Mouse BlueTouch 245, 6-button mouse, optional sensitivity of sensor 1000/1600 DPI, 1x AA battery, ON / OFF button

PRODUCT DESCRIPTION

i-tec Ergonomic BlueTouch 245 is an ergonomic wireless optical mouse with a Bluetooth 3.0 interface for comfortable and precise control of your notebook, tablet or PC. The Bluetooth adapter is nowadays integrated to most mobile equipment and so for connecting of the mouse, there is no need to use an external Bluetooth adapter that would take up the place in the USB port.

This ergonomic mouse is designed to keep your wrist working in a natural vertical position where the elbow, shoulder, or lower back are not strained. Using the ergonomic mouse also greatly reduces the risk of carpal tunnel syndrome! The ergonomic BlueTouch 245 mouse is easy to hold and even after working with it for a long period of time, the arm is not strained.

The mouse is powered only by 1x AA battery that is included in the package. Just simply link the mouse with your equipment and immediately you can start using it. The connection range is up to 10 m.

The optic sensor enables using the mouse on almost any surface and at the same time, it offers higher speed, precision, and reliability than the traditional mouse. Using the 1000/1600 DPI sensor sensitivity setup button you can customize the speed of the cursor so that it suits your personal preferences.

The mouse is compatible with the Windows XP/Vista/7/8/8.1/10, Mac OS X and Android operating systems. Comfortable control of the mouse is ensured through 6 buttons whose functions vary in the individual operating systems.

In case of any problems with installation, technical difficulties or faulty functionality of device find the possible solution in FAQ bookmark first.

Long product description: i-tec Bluetooth Ergonomic Optical Mouse BlueTouch 245, 6-button mouse, optional sensitivity of sensor 1000/1600 DPI, 1x AA battery, ON / OFF button
