up to 86 m3/h (51 CFM). The constant airflow will cool down your custom build to optimize its performance. And these fans come with integrated anti-vibration rubber corner pads for quiet operation.

Let there be light

Not every day, mood or game is the same. With the 150 different LED modes in all your favourite colours, you can choose the light settings fitting to your preferences by using the wireless remote. Whether you prefer one solid colour, breathing colours or the rainbow mode, simply push the button! And because of the near-silent operation of the fans with a noise level of less than 30dBA, you can quietly enjoy the spectacular mood lights.

Instant operation

The package includes a control box to control up to 10 fans simultaneously. This control box assures you full light control no matter the type of motherboard that you have. The integrated memory module makes sure you have independent and instant operation of your fans. These fans make functional look good for every PC!
