HFX60C20

CERAMIC HEATERS

- Maximum power: 2000W
- **Safe and efficient ceramic heating element**, that provides fast and powerful spot heat safely, thanks to the ceramic element self-regulating heat output.
- 2 power settings to optimize the energy consumption
- Summer ventilation.
- Adjustable room thermostat.
- Anti-frost function.
- Pilot light.
- Removable and washable anti-dust filter.

CERAMIC TECHNOLOGY

Ceramic technology is highly efficient, thanks to the wide heating element and highly safe thanks to the capability of the PTC element to self-regulate the power output according to the temperature increase.

2 POWER LEVELS

The two power settings allow you to optimize the energy consumption adapting to your needs.

TECHNICAL DATA

Rated voltage/Frequency	V~Hz	220-240~50
Heating power - Max	W	2000
Heating power - Min	W	1100
For rooms up to	m^3	60
Oscillating base		
Tip Over Switch		
Eco Energy System		
Silence system		
Anti-frost function		•
Summer ventilation		•
Dust filter		•
Dimension (wxdxh)	mm	229x168x333
Weight	kg	TBD
