GoGEAR

SA2SONGBRD

Superior Sound

even in the noisiest settings

Let GoGear Muse inspire you with an unrivalled sound experience boosted by FullSound™, Surround for movies and sound isolation headphones. Enjoy movies on its 3.2" HVGA touch-screen or connect to a HDTV for even greater viewing pleasure.

Superb quality sound

- Fullsound™ to bring your MP3 music to life
- Surround for movies to put you in the middle of the action
- Sound Isolation headphones to minimize environmental noise
- FLAC & APE lossless codec support for precise sound quality

Complements your life

- 3.2" HVGA color display for superb video enjoyment
- More content choices, with Audible and BBC iPlayer support
- HDMI out to watch High Definition (720p) video on HDTV
- microSD card slot for expanded memory capacity
- FM radio with RDS and 20 presets for more music options

Easy and intuitive

- Philips Songbird: one simple program to discover, play, sync
- Touch-screen control for smooth and intuitive navigation
- Innovative UI for advanced and simplified library browsing

PHILIPS

sense and simplicity

MP4 player with FullSound™
Muse 16GB*

SA2SONGBRD/00

Highlights

HDMI out (720p)

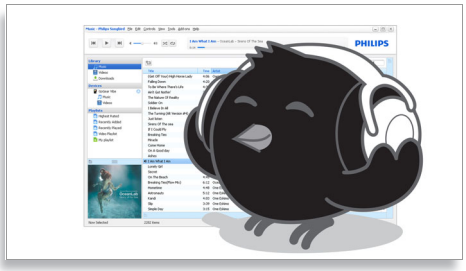

View HD blockbuster movies or home-made videos in resolutions up to 720p on your HDTV. HDMI eliminates conversions to analog signals, delivering digital audio and video directly, giving you perfect pictures and sounds that are completely free from noise. Simply connect your GoGear and HDTV with an HDMI cable and enjoy high quality and crystal clear video and audio entertainment. You can even control and browse through your videos conveniently on your GoGear screen. Share your movies with family and friends now.

microSD card slot

Small is beautiful when it comes to mobile devices, but not memory capacities. With the GoGear player, you can have the best of both worlds just by plugging in a microSD card. The microSD card will show up as a second removable drive when the player is connected to your PC for easy file transfer. Just load your card with the desired content and slot it into your player. You can purchase up to 32GB memory card to expand your GoGear memory capacity, so you never have to worry about running out of entertainment choices.

Philips Songbird

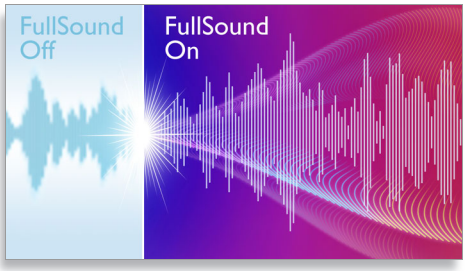

One simple, easy-to-use program that comes with your GoGear player, Philips Songbird lets you discover and play all your media, and sync it seamlessly with your Philips GoGear. Its intuitive and powerful music management features let you discover new artists and music styles directly in the program through music and media stores, services and websites. Play your own library and media from the internet and seamlessly sync all of it from your PC to your Philips GoGear.

Touch-screen control

Feel the smooth and intuitive control of your GoGear portable player with the soft touch of your fingertips. Its intuitive touch-screen interface makes navigation a real breeze, whether you are controling music playback functions, browsing your video and picture collections or choosing radio channels. Just click directly on the player's screen to navigate swiftly through menus and flip through your folders. Now that's what we call sensible and simple.

FullSound™

Philips' innovative FullSound technology faithfully restores sonic details to compressed MP3 music, dramatically enriching and enhancing it, so you can experience CD music without any distortion. Based on an audio post-processing algorithm, FullSound combines Philips' renowned expertise in music reproduction with the power of the latest generation Digital Signal Processor (DSP). The result is fuller bass with more depth and impact, boosted voice and instrument clarity, and rich detail. Rediscover your compressed MP3 music in true-to-life sound that will touch your soul and move your feet.
