- Recall your favourite Philips Hue scenes
- Mount or use remotely
- Powered by your touch – no batteries required
- Easy to install
- Compatible with Apple HomeKit

Issue date: 2026-01-11 Version: 0.335

Highlights

Requires a Philips Hue bridge

This product requires a connection to the Philips Hue bridge

Recall your favourite scenes

With the Tap switch you can recall 4 different pre-set light scenes or switch lights on/off by pressing a button. Use the app to set up your personal scenes or scenes that are created by lighting designers. You can use the Tap switch without opening the Philips Hue App and even when your Wi-Fi is disconnected.

Mount or use remotely

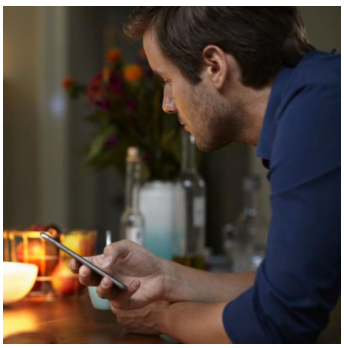

Mount the Tap switch anywhere with the included mounting plate, or detach it and carry it with you as you move through your home. Set the right mood for every moment of the day.

Powered by your touch

The Tap switch is powered by kinetic energy, which means that when you press the light switch, you generate sufficient energy to control your smart lights. A truly wireless, battery-less, solution.

Easy to install

Installed in a minute. Simply follow the instructions in the Philips Hue app to get started. The Tap switch default settings will get you going quickly and you can instantly personalise these settings in the app to fit your needs.

Compatible with Apple HomeKit

Connect your Tap switch to the Philips Hue Bridge and control any Apple HomeKit-compatible device. With the press of a button, you can turn off your lights and lower the temperature of your smart thermostat at the same time, and much more.
