Highlights

Fits your baby's growing needs

Five different nipple flow rates are available.

0% BPA

This product contains 0% BPA

Bottle and nipple brush

Specially curved brush head and molded handle-tip reach the corners of all types of bottles, nipples and feeding equipment for thorough cleaning.

Bottles clinically proven

Unique anti-colic system consists of the Philips AVENT nipple and adaptor ring allowing air to flow into the bottle instead of your baby's tummy for better digestion.*

Translucent pacifier

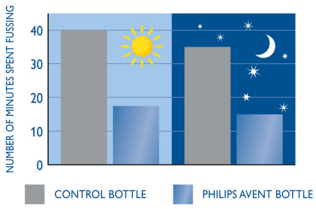

The orthodontic, collapsible nipple of the translucent pacifier respects the natural development of baby's palate, teeth and gums. All our pacifiers are made from silicone and are taste and odour-free.

Easy latch on

Unique valve on the nipple flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimize overeating and spit-up, burping and gas

Significantly reduces fussing

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby bottle design affects "infant behavior". The Philips AVENT Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs 74 min, p=0.05) This was especially true during the night-time.**

Unique anti-colic system

As your baby feeds, the unique valve on the nipple flexes to allow air into the bottle instead of your baby's tummy.*
