Control
- Tunable colour temperature
- Dimmable
- 4 pre-set scenes
- A remote control provides easy control for the light settings at up to 10 metres

Durability

- Long life span up to 15,000 hours

Highlights

Easy installation
Uniform light distribution
Throw light across your rooms in an even and uniform manner.

EyeComfort
Poor quality light can cause eye strain. With many of us spending time indoors, it's more important than ever to properly light your home. Our products meet stringent test criteria including flicker, strobe, glare, colour rendition and dimming effects to ensure they
meet EyeComfort requirements. Philips LED bulbs not only deliver comfortable light, but also stay that way for the duration of their lifespan, delivering consistent light quality, output and colour for more than a decade. Switch to light that's easy on your eyes. Your eyes will thank you.

Tunable colour temperature
Shift from crisp white light for focus to a warm yellow light for relaxation.

Dimmable
Allows you to change the mood by reducing LED brightness levels, from bright white light to a cosy glow – just like traditional lamps.

4 pre-set scenes
Enjoy different ambiences with the convenience of pre-set light scenes for every occasion.

A remote control provides easy control for the light settings at up to 10 metres
Turn lights on or off or change brightness and colour from up to 10 metres away with this remote control.

Long life span up to 15,000 hours
Philips LED technology extends your product's lifetime up to 15,000 hours.

Specifications
