

ICY BOX
IB-RP107

Protective case for Raspberry Pi® 2 and 3

Key features

- Protective solution designed specifically for the Raspberry Pi® 2 and 3 B/B+
- Sliced 6 layers enclosure is made of 6 individual aluminium layers
- Innovative enclosure design allows access to all ports
- Including heatsinks and thermal pads to keep your Pi® cool
- Supports an optional 30 mm cooling fan (not included)
- Can prevent the Raspberry Pi® from slowness caused by high temperature
- Easy access to power, video, audio, USB, LAN, microSD card and GPIO

Packing content
1x IB-RP107, 1x set of heat sinks, 1x set of screws, 1x quick installation guide (Raspberry Pi® and fan not included)

More space for your ideas!

This Raspberry Pi® kit is a small form factor aluminium case designed for performance and comfort. It cools down the Raspberry Pi® thanks to its aluminum construction and open frame design. The case is acting as a passive heat sink and supports an optional 30 mm cooling fan, which can improve the performances of the Raspberry Pi® .

ICY BOX **IB-RP107**
Protective case for Raspberry Pi® 2 and 3

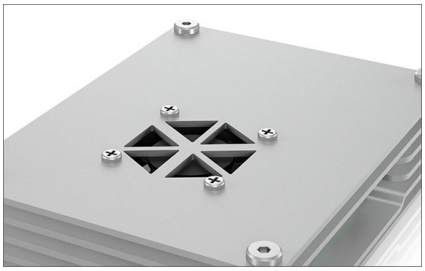

6 layers and a bunch of screws

Are you a Raspberry Pi® hobbyist, an enthusiast or a champion? It doesn't matter. With our DIY Raspberry Pi® case you can definitely succeed with this little puzzle. Visibly outstanding and not just from technical point of view.

Ready to go!

Cut-outs for the Raspberry Pi® 2 and 3 Model B connections are already available so the Raspberry Pi® can be connected and used immediately after installation.

Stay cool

Install your own 30 mm fan to improve the heat dissipation of your Raspberry Pi® to improve the performance thanks to the enclosure's open frame design.
