NGS WIRELESS MICROPHONE SINGER AIR

WIRELESS MICROPHONE VHF - 261.8MHZ - JACK 6.3 MM

The new NGS Singer Air microphone will enable you to make the most of your Karaoke sessions. Forget about the annoying wires and achieving greater freedom of movement.

NGS Singer Air is a very intuitive wireless microphone with an ON/MUTE/OFF switch that will surely become your ideal ally for parties or even conferences.

For its proper functioning you will only have to connect the wireless receiver incorporated to the microphone input of any speaker. You will switch on both, the receiver and the microphone, and they will automatically sync at the same time.

Yes, yes... As easy as it sounds!

The microphone runs on 2xAA 1.5V batteries and lasts 6 hours* (depending on the quality of these).

The receiver includes a rechargeable battery of 400mAh and offers up to 3.30hrs autonomy.

Moreover, it operates in VHF frequency of 268.1 MHz and its range is of 20m +-10%.

Television, speaker, mixer, touristic bus... Equipped with a jack 6.3mm plug, connect your receiver to any device so that you would be able to enjoy the Singer Air with superior sound quality.
