TV Flex M

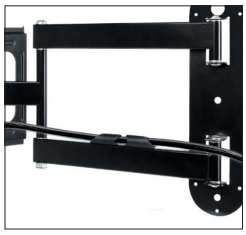

Flat Full-Motion TV Wall Mount for medium sized TVs

TV Flex M

Full Range of Motion

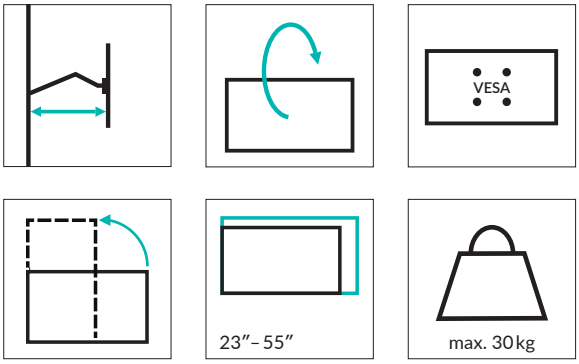

Wall Mounting

Cable Management

The TV Flex M full-motion wall mount enhances the viewing capabilities of flatscreen TVs. Strong, safe, and fully articulated – maximum flexibility makes it easy to find the perfect screen position. High quality steel construction with a lock system stably and securely supports screens from 23″– 55″, up to 30 kg, and is suitable for nearly all VESA standard flat screen TVs. Whether flush against the wall or extended to almost 50 cm, the TV and bracket fit seamlessly into any interior design style.

Full-Motion TV Wall Mount

- Optimal view from every angle
- Suitable for TV screens from 23″– 55″ to 30 kg
- Minimum wall distance of 41 mm, extendable up to 498 mm
- Fast and secure installation
- Cable management to hide device cords

TV Flex M

Slim Full-Motion Wall Mount

New viewing angles for flatscreen TVs
Two arms, three joints, countless possibilities. The TV Flex M's full range of motion helps eliminate glare while enabling a multitude of viewing angles. Effortlessly rotate 360°, swivel 180°, and tilt at +5/-10°: with the TV Flex M, there are no obstacles to finding the perfect position and getting the best view from all angles.

Load capacity with extra security
High quality steel and aluminum support screens with a size of 23″–55″ and weighing up to 30 kg firmly on the wall. A sturdy lock system with secured retaining clips guarantees extra security.

Maximum flexibility, minimal space
Ultra-slim with minimal 41 mm wall clearance or extendable up to a full 498 mm: the bracket's flexibility allows the TV to blend seamlessly into any interior, making it a truly functional, space-saving eye catcher.

Fast and easy mounting
Everything needed to quickly and easily install the lightweight mount is included: easy-to-understand assembly instructions as well as the necessary mounting materials. It even comes with an integrated spirit level – all one needs is a drill.
