NGS PREMIUM SPEAKER WILD SKA 1

300W DOUBLE8" WOOFER SPEAKER BUILT IN BATTERY-USB/SD/BT

NGS Wild Ska 1 is a powerful and portable DJ high-power music system compatible with Bluetooth technology and TWS. Brand new design, 300W of peak power, 2x8" woofer // 2x3" tweeter and offers up to 7 hrs of autonomy to bring the party everywhere.

You decide how
This speaker is compatible with Bluetooth 4.2 +EDR Technology, USB port, Micro SD, Aux Input, and you can pair two devices of the Ska family simultaneously and increase the sound power thanks to its True Wireless Stereo Technology.
Its Audio output allows you to connect in series several devices through a 3.5 mm jack cable in any mode.

Lights, Action!
Bring a feast-oriented environment with the built-in multi-colored LED speaker lights. With different speaker patterns syncing to the beat of your favorite tracks, you'll be able to fix one of the three colors or even turn them off from the button located on the rear side or with the remote control.

Portable and self-suficient
NGS Wild Ska 1 features a 12V 4,5A (4500mAh) built in battery that will allow you to enjoy music for 7 hours at 70% of its volume.Its modern and compact design incorporates 2 handles, two on each side, it also includes transport wheels and a trolley for maximum portability and convenience.

Karaoke or Jam session?
It includes one microphone input and Karaoke function that once is activated, reduces the music sound when the microphone input signal is detected. Furthermore, it´s amplified guitar input will allow you to enjoy your melodies.

Take one... Action
It includes a function to record the microphone or guitar input signal on a USB or Micro SD memory connected to the speaker.
Alone or in a group?
Depending on the different types of music you want to play, you can select 6 different equalization modes: Normal, Rock, Jazz, Classic, Country and Pop.

The Mega Bass function will enable you to enhance the bass to an amazing new level

Piece of cake
NGS Wild Ska 1 outstands for its ease of use and convenience. It is possible to take control with the remote control that is included and adjust the volume and turn on and off both manually, directly from the music system as well as through the remote control. Equipped with separate mic and guitar volume controls.

It´s useful LED screen lets you easily manage your listening experience showing practical info such as: Mode, Playback time, track number playback etc.
