Integrated Dishwasher with AirDry Technology

FSS63400P

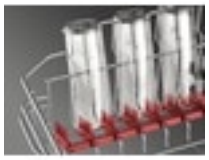

Customised Cycles, Complete Cleaning
Advanced sensors in AEG dishwashers automatically adjust the time, temperature and water usage according to the soil level of each load. So you can have customised cycles for each clean with the very best results every time.

Advanced sensors in AEG dishwashers automatically adjust the time, temperature and water usage according to the soil level of each load. So you can have customised cycles for each clean with the very best results every time.

Product Benefits & Features

Dedicated protection for your delicate glasses
Glasses are often the most delicate items in your dishwasher, which means they need special care. The upper basket in this dishwasher has soft rubber spikes to support and protect glasses. The SoftSpikes stabilise your glasses and mugs efficiently, preventing them from falling over and possibly breaking.

Ready when you are
Make the most of the time you have available with the delay start function in our dishwashers. Preset a programme time that suits and enjoy the convenience of having clean dishes when you want them.

Always know exactly when the dishwasher is done
Thanks to TimeBeam you can be fully up to date on the status of your dishwashing cycle at a glance. While the cycle is still in progress, TimeBeam technology projects the remaining amount of time in a clear red light on the floor. Simple, straightforward and effective.

- Capacity: 9 place settings
- Sensorlogic
- Extra silent programme
- 4 temperature settings
- 7 programmes including:
- 30 min 60° quickwash
- Glass 45° C wash
- Auto half load
- Multi-tab
- Delay start of up to 24 hours
