Product Benefits & Features

Clean as you cook
Because the surface around the pans stays cool as you cook, you can get rid of spills as you go along. Nothing gets burnt on, and there's nowhere for dirt to hide. So it's easy to keep the hob area looking pristine – even while you're still cooking.

Mastering the menu.
At your fingertips
The individual touch controls in the AEG induction hob are equipped with plus or minus buttons for effective temperature control. Adjust the settings at a touch for absolute control over the cooking process. Precision for every step of a recipe, always resulting in great taste.

Hob2Hood - Cook without distractions
This hob has Hob2Hood, a useful feature that automatically controls your cooker hood and lights. It means you don't get distracted by trying to regulate the fan when you're at crucial cooking moments: you can simply concentrate on getting your dish right. But if you'd rather adjust the fan speed

Intense rapid heat
No more waiting around for pots to boil. The PowerBoost button gives you an instant burst of heat that boils water in under 90 seconds* – that's even faster than an electric kettle. It's perfect for tasks like boiling potatoes, and other quick cooking jobs too, like searing meat.

Total control over cooking time
The adjustable timer (max. 99 minutes) will remind you of the cooking time. It can also be used as a minute minder when the burners are not in use.
